

**SUB-APPENDIX F5 - NAC/WAC FM IR POLARIZER FILTER TRANSMISSION/BLOCKING DATA**

Note : See Section 4.2.3 for the test description. “// - Corrected” data represents the “transmission” through the polarized filter where the polarization axis of the filter is parallel to the polarization axis of the light. “X - Corrected” data represents the “blocking” through the polarized filter where the polarization axis of the filter is perpendicular to the polarization axis of the light.
